

Commodore's Corner, Eric Baller

Enjoy the summer! There may be some articles about fall cleanup and getting boats out of the water, but that's only because we want you to know what's coming. There is still plenty of summer weather left, with good breezes and warm water to enjoy.

The events this summer have also been fantastic, with more still to come. Stop in for a Friday Happiness Hour or join one of the upcoming events. I certainly took advantage of the ice cream social during the sand castle contest - it looked like everyone had a great time, and congratulations to all the winners!

When heading out on the water, be aware that lake conditions can change quickly and the unexpected can happen at any time.

Always leave the beach wearing a lifejacket.

If you see someone that looks like they may have forgotten, please help them out with a friendly reminder. We expect everyone to take safety seriously. Every time.

Commodore Eric's Epic Week of Sailing:

The week of the Commodore's Challenge, Eric sailed 5 different boats!

Cruiser "**HighLife**" in the Challenge
Sunfish in the Sunday Races
His **JY-15**
Daughter Kendall's **Catamaran**
and "Pond Hawk", a **Lightning** in the
Thursday night Yacht Club Races

You make us proud Eric!!

Membership, Rich Bilback

As we approach the end of the season, please make sure you have fulfilled your three Member Participation requirements. These include one Duty Officer/Sail Patrol day and two functions. Fall Cleanup counts as one function. You still have the option to buying out of one or more Member Participation requirement by sending \$110 per function to PMI Membership, PO Box 181, Pultneyville, 14538

We continue to have a lot of interest in the club. Our PMI Waitlist has over 19 prospective new members. Even if the Board maintains the same 130 membership level for our 2023 sailing season, some of these prospective new members may need to be waitlisted until our 2024 season!

Anyone interested in being added to the PMI Waitlist should send a request through the Sailpmc.com Contact page...

From the Dockmaster, Linda Rohlfing

As our summer sailing season starts to wind down and Fall is close behind , here are some reminders and guidelines to prepare for the end of our 2022 season...

MONOHULL SAILBOATS AND DRY SAIL STORAGE

Near the end of September and into October many members will start to pull their monohull sailboats out of the water in preparation for the winter season.

Due to our increased boating membership, we have quite a few boats and trailers in the dry sail area. Some of these boats and trailers are currently parked in spaces temporarily for the summer. Monohull boats coming out of the water may find a trailer parked in the dry sail area where they usually store their boat for the winter. I ask everyone who will be parked in the dry sail area for the winter to prepare ahead of time and look at the area where you unusually store your boat for the winter. Let me know if there is a boat / trailer in that area and I will arrange to make that space clear for you.

When parking your boat and trailer, try to put wood planks under trailer wheels as the trailers sometimes sink into the soft ground during the winter months and become stuck.

CATAMARANS

Last winter proved to be challenging with periods of very strong winds that caused many catamarans to be pushed around and sometimes taken off of their trailers.

Therefore, I have the following recommendations (advice from fellow cat owners) for how to store your catamaran for our winter weather.

This obviously does not apply to you if you have taken your boat off the premises for the winter, but it is still good to know.

BOAT STORAGE PROTOCOLS FOR CATAMARANS

1. Remove all sails and store.
2. Take the mast down. *Believe it or not, but I have been informed that leaving the mast up can actually catch the wind which then can act like a sail. This can cause the boat to become quite unstable and allow it to shift in the wind.*
3. Remove the trampoline so that this will not act like a sail.
4. Anchor / secure your boat to your trailer and then anchor your trailer into the ground with stakes to prevent the trailer from shifting.
5. Please store your boats as close to each other as possible, leaving enough room to walk around each boat. Be aware of the area on the cat island that collects water and forms a temporary pond or "swamp". There are numerous cement blocks behind the bathroom that can be used to help store your boat for the winter. I don't think anyone wants their boat to possibly freeze in case there is a pond during the winter.

SHED STORAGE

For those of you with shed storage... When storing your gear in your shed space for the winter, please keep your gear contained within your assigned space. If you find that you need more space, please contact me so I can find additional space for you.

Please contact me directly with any boat storage questions or concerns via email (dockmaster@sailpmc.org or linda.rohlfing19@gmail.com) or call / text 585-766-9073 to leave me a message.

Duty Officer Coordinator, Jessica Shaver

Thank you to all the members who have fulfilled their duty officer obligation for this season. Members rely on the duty officers to ensure that the grounds are in order, to sign in guests, and to provide a point of contact for any issues that might come up during the day. Members who do not fulfill their duty officer obligation may be charged a non-participation fee, as it is an important requirement of active membership. We appreciate everyone's help!

The following shifts are still open at this time and need coverage:

Sunday Dinghy Sailing Continues

For your curiosity here is the current dinghy sailboat count.....29 sunfish vs 20 lasers / F5's for a TOTAL 49 dinghy sailboats

We have had a great season of Sunday dinghy sailing. The Lasers are currently winning the Laser vs Sunfish challenge for this season. We still have a few more Sundays left, so get your boats out on the water before the season ends. Skippers meetings are Sundays at 1:00 pm on the beach. Hope to see you there!

Maintenance / Weed control in Channel

The weed razor is assembled and in the sail patrol shed. Use EXTREME caution when handling this tool/weapon. It is literally a handle with large razor blades attached to it. Make sure to replace the blade guards when not in use. The directions and sharpener are attached to it.

Have fun! (carefully)
